Python Full Stack Developer

A motivated Computer Science student with a solid foundation in web development technologies like HTML/CSS, JavaScript, and programming knowledge of C/C++, Java and Python. Looking to contribute to a dynamic team while further developing skills in software development and problem-solving.

TECHNICAL SKILLS

Languages	: Html/CSS, JavaScript, C/C++, Python, Java
Frameworks	: ReactJS, Django
Databases	: MYSQL
Dev Tools	: Visual Studio Code, Git
Other	: Data Structure and Algorithm

EDUCATION

Binodini Girls High School –10 th (86.28%)	Aug 2017 – Jul 2018
Binodini Girls High School –12 th (86%)	Aug 2019 – Jul 2020
University Of Calcutta – B.Sc in Physics (8.24 CGPA)	Sept 2020 – Jul 2023
Sister Nivedita University, Kolkata – MCA (9.00 CGPA)	Aug 2024 – Present

EXPERIENCE

Python Dev Intern at Infosys Springboard 6.0 2025 [Html, CSS, JavaScript, Python, Django, Git] [Github]	Sep 2025 – Nov 2025
- Developed a Pet Rescue Web Application to manage pet registration, rescue operations, and adoption workflows. - Built the backend using Django and Django REST Framework, implementing secure user authentication and role-based access (Admin, User). - Created an admin dashboard for viewing adoption statistics and pet data visualization. - Integrated REST APIs between Django backend and frontend for real-time data interaction. - Used MySQL as database and Git/GitHub for version control.	

PROJECTS

WeatherApp [Html, CSS, JavaScript, Git] – [Github]
- Added smooth animations and visual effects to enhance interactivity and overall user experience. - Developed a responsive weather application using HTML, CSS, and JavaScript with a focus on clean UI and user-friendly design. - Integrated a Weather Forecast API to display real-time weather data such as temperature, humidity, and wind speed based on user input.
FunnGames [Html/CSS, JavaScript] – [Link] [Github]
- Created a responsive and lightweight web platform called FunnGames, offering a collection of simple, interactive browser-based games built using core web technologies. - Implemented DOM manipulation, event handling, and basic game logic without relying on external libraries or frameworks. - Games include classics like Tic-Tac-Toe, Rock Paper Scissors.

Certification & Achievements

- Python for Everybody Coursera - Link - Introduction to Networking and Cloud Computing Coursera - Link - Google Project Management Coursera - Link - Programming in C Coursera - Link - Dynamic Programming, Greedy Algorithms Coursera - Link
